

This Dirty Little Town

Kieren Kane

[D] [D] [D] [D]

Some-[D] day I'm gonna leave this dirty little town
Where the [G] talk is cheap on the dirty little streets
And the [D] trees are dying underneath the sky
that's purple and [A7] brown
You can't [D] drink the water can't breathe the air
If you [G] go out at all well you better take care
People [D] packing heat
on the mean old streets of this [A7] dirty little [D] town

I've been [G] saving my money each and every day
Every [D] dollar I make I put a nickel away
[G] Five little pennies don't seem like much
Maybe [D !] 20 more years and [A7 !] I'll have enough [A7]

Some-[D] day I'm gonna leave this dirty little town
Where the [G] talk is cheap on the dirty little streets
And the [D] trees are dying underneath the sky
that's purple and [A7] brown
You can't [D] drink the water can't breathe the air
If you [G] go out at all well you better take care
People [D] packing heat
on the mean old streets of this [A7] dirty little [D] town

[G] Folks round here say I'll never go
But there's [D] something about me they don't know
[G] I've already left this place in my mind
When [D !] my body goes it's just a [A7 !] matter of time [A7]

Some-[D] day I'm gonna leave this dirty little town
Where the [G] talk is cheap on the dirty little streets
And the [D] trees are dying underneath the sky
that's purple and [A7] brown
You can't [D] drink the water can't breathe the air
If you [G] go out at all well you better take care
People [D] packing heat
on the mean old streets of this [A7] dirty little [D] town
People [D] packing heat
on the mean old streets of this [A7] dirty little [D] town [A7] [D !]
