

# Wintersong

Key: A

Country Radio

## Verse 1

**E** **A**  
North wind rolling down my friends are leaving town

**F#m** **E**  
I know they're waiting just for me

**E** **A**  
One more summer gone and one more winter song

**F#m** **E**  
And one more time I tried to leave

## Chorus

**F#m** **A** **E** **C#m**  
Maybe it's the lonesome way you turn your head and smile

**F#m** **A** **E**  
Each time the snow begins to fall

**F#m** **A** **E** **C#m**  
Maybe it's the fact that you're around me all the time

**F#m** **A** **E**  
That keeps me going through it all

## Verse 2

**E** **A**  
If I could make you see I'm not the man you need

**F#m** **E**  
I just don't make the staying kind

**E** **A**  
Then like the snowbird flies we go, my songs and I

**F#m** **E**  
Instead of staying one more time

## Chorus

**F#m**                    **A**                    **E**                    **C#m**  
Maybe it's the lonesome way you turn your head and smile

**F#m**                    **A**                    **E**  
Each time the snow begins to fall

**F#m**                    **A**                    **E**                    **C#m**  
Maybe it's the fact that you're around me all the time

**F#m**                    **A**                    **E**  
That keeps me going through it all

## Verse 3

**E**                    **A**  
LaLa La La, LaLa LaLaLa La

**F#m**                    **E**  
LaLa La La, LaLaLaLa

**E**                    **A**  
LaLa La La, LaLa LaLaLa La

**F#m**                    **E**  
LaLa La La, LaLaLaLa

## Chorus

**F#m**                    **A**                    **E**                    **C#m**  
Maybe it's the lonesome way you turn your head and smile

**F#m**                    **A**                    **E**  
Each time the snow begins to fall

**F#m**                    **A**                    **E**                    **C#m**  
Maybe it's the fact that you're around me all the time

**F#m**                    **A**                    **E**  
That keeps me going through it all
